

TRUONG THI THU HANG

Intern Tester

About Me

I am a student seeking an internship opportunity to apply the knowledge I have learned in a real working environment. I have a basic understanding of the testing process, can write test cases, and am familiar with tools such as Postman, SQL, and Excel. I am proactive in learning, meticulous in my work, and highly responsible. My goal is to develop a career in software testing and continuously improve both my professional skills and teamwork abilities.
